Monument wishes to acknowledge the cooperation of MCA Records and CBS Records for making the Brenda Lee and Willie Nelson duet performances throughout this album possible. These two companies have proven that some corporations do have heart and an eye for artistic achievement.

Special Thanks

To: Ron Chancey for his production assistance on the Brenda Lee side. My respect for his abilities is enormous.

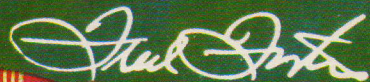

To: Bob Beckham, who selected the songs for Brenda, and who in his secret heart still fronts her show.

To: Hugh Cherry, whose remark in the Dallas-Fort Worth airport about 'Kings and Queens of Country Music' inspired the title and cover design.

To: the many musicians and singers who over the years contributed not only to this album but music in general.

To Johnny Cash—his support of the people I love and his willingness to lend a helping hand have always made him ace high with me. His spirit shines as a beacon to many of us who try to become better than we have been. His sensitive, creative annotation stands alone as pure art, and makes "The Winning Hand" a pat hand. "— words can't describe what I feel inside."

To: Almighty God, who put me on intersecting paths with Brenda, Dolly, Kris and Willie. Four of the true originals artistically, and four of the best friends any one man ever had. It is their friendship I treasure most of all. An extra bow to Willie who came up with the concept and to Kris who made it possible. I love you all.
